TALLAHASSEE — The Railroad and Public Utilities Commission has authorized Florida trucking firms to hike intrastate shipping charges by nine per cent.

The trucking companies, including most of Florida's big shippers, had asked for a 15 per cent hike in rates, but the commission pointed out that higher charges are not the only solution to poor operating ratios. The commission suggested the firms find new ways of cutting costs.

## Talton Joyce And Family Safe After Lake Experience

Sam Talton Joyce, sheriff of Indian River County, was raised on Lake Okechobee in Canal Point and the strange quirks of the big old lake known to him, probably saved his and his family's lives recently when their boat capsized on the big body of water. They spent 19 hours in the murky water of the second largest fresh water lake wholly within the United States and lived to tell the tale.

But let Sheriff Joyce tell the story and here it is:

"We weren't scared, and the children weren't frightened. We've always taught them to be prepared for anything," said Sheriff Joyce of Vero Beach. "Even Duke behaved well . . . for a dog."

After clinging to the partially submerged how all night, the family secured their life jackets and swam for safety. Duke, wrapped in a regular life jacket like a hot dog, came along. They covered nine miles and were just three from safety when a boatload of commercial fishermen hauled them out at 1 p. m.

Joyce, his wife Bett, 10-year-old Todd and 8-year-old Deborah Sue were thrown into the murky lake waters at 6:30 recently, when their 19-foot cruiser "Re-Joyce II" hit a submerged object.

"We donned those life jackets (continued on page 4)

County Commissioner Paul Rardin said representatives of the Savannah Sugar Refinery had been scouting a plant location in the Glades, plus two other location in the area. He said it would take 30 days for the refinery group to reach its decision.

"We have turned every wheel we could think of to get it located in Palm Beach County," Rardin told the commission.

The plant would have a payroll of from 100 to 150 employees.

Value of the sugar industry to the county was highlighted Monday in a report by the county agricultural department. ### Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission this week received information on proposed construction of State Road 8—but the word wasn't too encouraging.

The commission has been pushing for an early start of construction of a section of road known as I-95 bordering the West Palm Beach area.

The State Road Dept. informed the commission that plans are being completed for a section between Okeechobee Road and Donald Ross Road but construction would not be soon. Start of the program was set for "sometime during the next 17 months."

At one time, start of construction was set for this month, but numerous delays have pushed the project far into the future.

In other action concerning highways, the commission;

Took under consideration a request that width of right of way for the Old Dixie Highway in Boca Raton be reduced from 70 feet to 45 feet.

Gave the green light for clearing a section of right of way for improvement of Gulfstream Boulevard in the Seacrest High School area.

Set a 25 mile per hour speed limit on Collins Drive in Palm Beach Estates and turned down a

proposal to install speed bumps on Steiner Road.

Instructed the county engineer to obtain costs for lighting a section of U. S. highway 1 between Delray Beach and Boynton Beach.

Adopted a resolution, banning parking on county roads within 200 feet of an intersection in the interest of safety.

### Hyacinth Control By Fish Commission

TALLAHASSEE — A total of 1,764 acres of hyacinths have been eradicated during the month of June by hyacinth control crews of the Game and Fresh Water Fish Commission.

Myers said that in addition to spraying, the crews spent almost 822 hours clearing logs and other obstructions from Florida's waterways to provide more fishing and better boating in Sunshine State waters.

## BEER IS A NATURAL

As natural as the wholesome grains and tangy hops from which it is brewed, beer is Florida's traditional beverage of moderation...light, sparkling, delicious.

And naturally, Florida's Brewing Industry is proud to be a major purchaser of Florida products and raw materials. For example, the Brewing Industry is responsible for millions of dollars paid annually to Florida farmers for pulpwood to be made into cardboard boxes and cartons. Millions more are spent for other Florida materials and services. In Florida, beer belongs...enjoy it.

*"Today we need a nation of Minute Men . . . .  
citizens who regard the preservation of freedom  
as a basic purpose of their daily life . . . ."*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration  
as the 35th President of the  
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

### Over 2,000 New Laws To Confuse Public

TALLAHASSEE — The 1963 Florida Legislature passed nearly 1,000 fewer bills than were passed by the 1961 session, according to Secretary of State Tom Adams.

The 1963 session produced 2,047 new laws. There were 3,015 in 1961, which was a record number of bills passed in one session.

One reason for the large number of bills in the 1961 session, said Adams, was the population issue which required a number of bills affecting only local areas. These were made necessary by the 1960 census which upset hundreds of existing population acts.

Traveling diners, reports the American Automobile Association, doubled their complaints on service during 1962 and reduced complaints on restaurant food by 25 per cent.

### Talton Joyce And— (Continued From Page 1)

pretty fast. The rest was teamwork. We've been boating for years and were prepared," Joyce said.

Joyce said the boat sank immediately. He was able to turn it over and trap enough air in the bow to keep it afloat.

"Tod and Deborah and Duke sat on the protruding portion, about three-feet wide, while my wife and I hung on," he said. "It was a quiet night except for occasional calls to be sure every one was okay."

Joyce said planes passed within an eighth of a mile during the early morning but failed to spot a red quilt the family had spread on the protruding hull.

"Finally I gave up hope of being spotted. We decided to swim. We were tied together with a 50-foot rope, Duke in the middle — and away we went," he said.

"I guess we went about nine miles before the fishermen picked us up," Sheriff Joyce said. "We were glad to see them."

Mrs. Joyce was admitted to the Clewiston Hospital with gas burns, suffered when the tank ruptured. The rest of the family, including Duke were in good condition.

"You have to look at these things as they happen. One thing at a time. You might say we were prepared. I think we were," he said.

### Hart Disease Is Taking More Lives

Deaths in Florida from heart disease have reached a new high today. The State Board of Health said today.

Dr. James E. Fulghum, director of the board's Division of Chronic Diseases, said complete figures for 1962 showed 19,016 deaths or 36 per cent of all resident fatalities. The rate per 100,000 was 355.4, also a new high.

In 1961, there were 17,588 deaths for a rate of 340.9 per 100,000 population.

Last year there were 10,809 white male deaths against 5,893 white female deaths. There were 1,257 nonwhite male deaths; 1,057 nonwhite female deaths.

Dr. Fulghum said heart disease is divided into three main categories: infective (resulting from infection); arteriosclerotic (hardening of arteries and blood clot, and also known as coronary heart disease); and hypertensive (normally, high blood pressure) types.

### Clerk's Mother In Georgia Passes Away

Funeral services for Mrs. A. A. Arnette, 95, who died Sunday morning at her home in Jesup, Ga. after an extended illness, were held Monday afternoon at the Jesup First Baptist Church. Burial was in the Union Cemetery.

Mrs. Arnette, the mother of Palm Beach County Circuit Court Clerk, J. Alex Arnette, was a lifelong resident of Wayne County, Georgia. She was the daughter of the late James C. and Florence Akin Hatcher, and was the oldest member of the Jesup First Baptist Church.

Survivors in addition to her son, J. Alex Arnette of West Palm Beach, include two daughters, Mrs. E. Bland and Miss Georgia Arnette, both of Jesup; five sisters; one brother; three grandchildren, including Mrs. Russell Henderson and Mrs. Johnny Spinks, both of West Palm Beach; five great-grandchildren and several nieces and nephews.

### New York World's Fair Exhibits

TALLAHASSEE—Members of the Florida World's Fair Authority made a progress report to Gov. Bryant and the 25 advisory board members recently named to aid in preparing a Florida exhibit for the coming New York World's Fair.

Authority members said the state's exhibit is right on schedule. Wendell Jarrard, chairman-director of the Florida Development Commission, said no Florida promotion in history had the solid backing being demonstrated by state officials and private industry in connection with the 1964-65 fair.

Earlier, the cabinet released a second \$250,000 of the state's \$1 million authorized contribution.

Jarrard said the Florida Citrus Commission was contributing a like amount and private interests would put up the remaining \$1 million. He said with investments in displays the Florida show would be worth \$5.7 million.

The Florida exhibit, which will have a basic investment of \$3 million when displays by private interests are excluded, will open in April for a two-year run.

### Sen. Holland Will Speak FFVA Meet

ORLANDO — U. S. Senator Spessard Holland, a Polk County citrus grower, will deliver the keynote address at the 20th annual convention of the Florida Fruit and Vegetable Association in Miami Beach, Sept. 24-26.

Other national and state officials participating in the program will include Congressman A. S. (Syd) Herlong, Jr., of Leesburg; Florida's Secretary of State Tom Adams; A. Worley Brown, chairman of the Florida Industrial Commission; Laurence K. Walrath, Ponte Vedra Beach, chairman of the Interstate Commerce Commission and Commissioner of Agriculture Doyle Conner.

Senator Holland is a ranking member of the Senate Agriculture Committee and, back in 1935, drafted the legislative act setting up the Florida Citrus Commission. His convention address will stress the importance of Florida agriculture in the national and world picture.

## How Old Are You? Can You Prove It?

Last year, more than 12,000 residents of Florida turned to the Bureau of the Census, U. S. Department of Commerce, for help in proving where and when they were born, the Bureau reported today. They needed proof of age to collect social security and other retirement benefits. They needed

it to obtain passports. They needed it to qualify for jobs carrying certain age or citizenship requirements. They needed it for some forms of insurance.

These persons who requested assistance from the Census Bureau last year were among an estimated 20 million United States residents who are without proof of age or birthplace. The historical records of the Census Bureau provide the only acceptable source of this information for many of these people. Since its beginning in 1790, the U. S. Census has recorded

identifying data for almost 350 million persons, many of them listed several times in separate censuses. The Bureau has provided copies of these records to about three and one-half million people, as legal proof of age, place of birth, citizenship, or kinship.

Persons seeking such a record for social security purposes should go to the local Social Security Office, or, for other purposes, write to the Personal Census Service Branch, Bureau of the Census, Pittsburg, Kansas, for an application form. A fee of \$3.00 is charged

for a search of not more than two censuses for one person and for one copy of the information found. Additional copies cost \$1.00 each. An expedited search costs \$4.00. Expedited searches are usually completed within a few days while the routine \$3.00 search may take up to 30 days, depending upon the backlog of requests.

The personal information in the records of the 1900 and later Censuses is confidential by law and may be furnished only upon the written request of the person to whom it relates or, for a proper

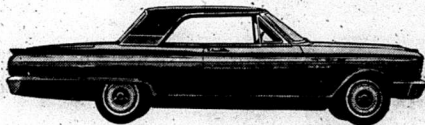

purpose, a legal representative such as a guardian or administrator of an estate. Information regarding a child who has not reached legal age may be obtained upon the written request of either parent.

Chairman-Director Wendell Jarward of the Florida Development Commission says the fall and winter tourist promotion campaign will be linked with an industrial advertising program to develop 25,000 new jobs in Florida this year.
